

HUTCH TECH “BACK TO SCHOOL” SCHEDULE

August 31,2020

Welcome Hutch Tech families and students,

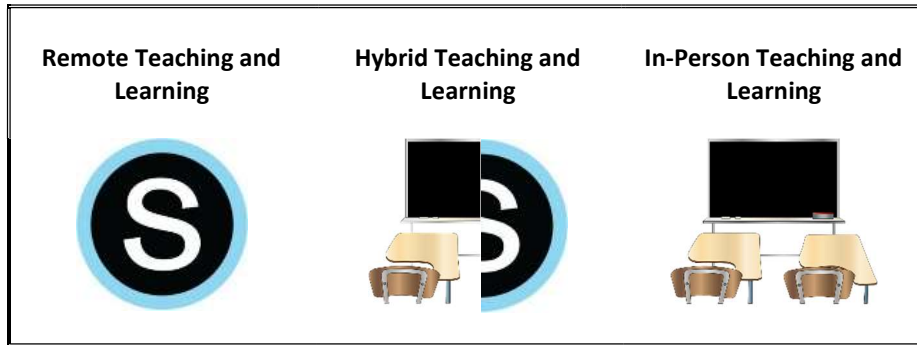

Please refer to the following information which provides an overview of our daily schedule to begin this school year virtually.

Although we are beginning school virtually, Hutch Tech needs to be prepared for all possible school scenarios. The three scenarios are as follows:

- A. In-Person Teaching and Learning: Students attend school on campus each day school is in session while utilizing the health, safety, and educational protocols and procedures described in this plan.

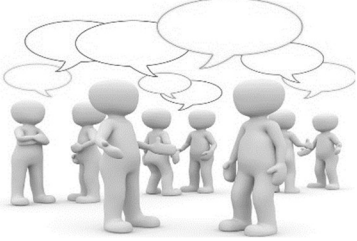

- B. Hybrid Teaching and Learning: This model allows flexibility in the education of students across the District. Not all students will be in the school building at the same time, allowing for a blend of in-person and remote instruction.

C. Remote Teaching and Learning: Students will remain at home, and teachers will provide remote instruction through the district's Learning Management System.

Classes will be Synchronous and Asynchronous.

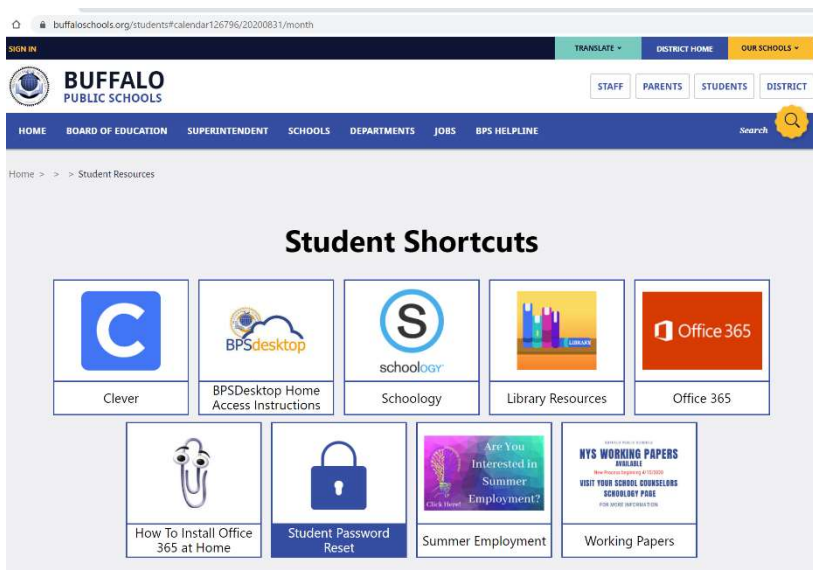

- Synchronous learning means that teachers deliver instruction in real time, whether in-person or in a virtual environment.
- Asynchronous learning refers to students' ability to work independently from home and have the ability to access information, demonstrate what they have learned, and communicate with classmates and teachers at different times and at their own pace.

Synchronous	Asynchronous
	
<p>Teacher and Students work at the same times while interacting (either in-person or remote)</p>	<p>Teacher and Students work at different times</p>

This Remote Teaching and Learning model can easily and seamlessly rollover to a Hybrid Teaching and Learning or In-Person Teaching and Learning Model.

Student Expectations

- The expectation for students is that they sign into Infinite Campus to view their schedules. (Student schedules should be available this week.) This is a work in progress.
- All students will attend synchronous learning virtually, using Microsoft Teams and Schoology.

- These applications can be accessed via www.buffaloschools.org

- Teachers will take attendance daily during each class. Students are expected to be logged in on time. Students must participate in all classes! Your participation is important to demonstrate that you have met and exceeded the learning standards in all classes.
- Students will follow Hutch Tech’s regular bell schedule (see below).
- Students, plan ahead and make sure your Schoology account is up and running with correct classes when your individual schedules have been completed this week.
